Dear Mr. Thompson:

California Save Our Streams Council asks that we inform you that it wishes to be associated with, and to be a signator on the comments both emailed to you yesterday and received by you today in a FedEx delivery. The comments with the letterhead dated December 14 that first lists Friends of Trinity River should include:

California Save Our Streams Council

By: s/ Lloyd Carter, President, Board of Directors

Although I had indicated the comments also would be transmitted by fax, I do not intend to do that. The charts in attachments that contain color would not be displayed properly in a fax.

Byron Leydecker

Chair, Friends of Trinity River
