

ITA Determination:

The closest ITA to the proposed Water Year 2021 Whiskeytown Lake Drought Action is public land allotment (a parcel of land or real estate holding, that may or may not be affiliated with a particular tribe or is in the process of being recorded) which is approximately 10 miles from the project area. (See attached image).

Based on the nature of the planned work it **does not** appear to be in an area that will impact Indian hunting or fishing resources or water rights nor is the proposed activity on actual Indian lands. It is reasonable to assume that the proposed action **will not** have any impacts on ITAs.

APPENDIX D

The screenshot shows a web browser window displaying the 'Native American Lands Application' powered by BORGIS. The application interface includes a search bar, a map with a 25-mile search radius, and a results table. The table lists the following assets and their distances:

Asset Name	Miles
50F G5124	9.64
50F R509	10.53
Redding	11.79
50F 5093	17.49
50F 5099	17.53
50F 5101	17.57
50F 5098	17.59
50F 5097	17.60
50F 5096	17.60
