162

remain in full force during the duration of the useful life of the Project or until terminated.

163

(b) The Contracting Officer may terminate this Agreement at any time before

164

the expiration of its term whenever the Contracting Officer determines that the Authority is in

165

substantial violation of the Agreement as provided in this subarticle 2(b) or otherwise in

166

violation of Federal law or Reclamation Policy; provided, that prior to the effective date of any

167

such termination, the Contracting Officer shall first notify the Authority in writing of, the

168

specific purported deficiencies of the Authority in carrying out the terms and conditions of this

169

182

if determined to be appropriate by the Contracting Officer, or if requested by the Authority. The

183 review shall compare the relative success which each Party has had in meeting its objectives,
184 including, but not limited to, the Contributed Funds Agreement, an OM&R Agreement, a
185 Repayment Contract, a Spend Plan, and a Coordination Agreement, which agreements will be
186 exhibits to this Agreement. Exhibits to this agreement, excluding Final Storage Benefits, will be
187 mutually agreed to and signed by the Parties and will be incorporated into this Agreement. The
188 Parties must successfully execute the Spend Plan and the Contributed Funds Agreement, and the
189 Authority must deposit all funds identified as necessary to complete construction in escrow by

196 **COST SHARE**

197 3. As provided for in WIIN §4007(b)(2), Reclamation may fund up to 50% of the
198 Expansion Project costs so long as the benefits from the Expansion Project are commensurate
199 with the Federal investment.

200 (a) Reclamation has the authority to share up to 50% of the costs of the
201 Expansion Project; however, Reclamation and the Authority have agreed to an initial 70%
202 Investor Share of Expanded Reservoir and a 30% Federal Share of Expanded Reservoir.

203 (1) Upon the determination of “Substantial Completion” of
204 construction of the Expansion Project, Reclamation and the Authority will meet and confer

205 within a reasonable time frame to complete a final accounting of Expansion Project benefits to
206 determine and mutually agree upon final storage benefits of the Expansion Project and the
207 allocation to Reclamation and the Authority. The final storage benefits attributable to the Parties
208 will be documented in an exhibit to this Agreement. Reclamation, in coordination with the
209 Authority, will assess the Expansion Project costs and make a determination of which Expansion
210 Project costs are reimbursable and which Expansion Project costs are non-reimbursable.

211 (b) Eligible Expansion Project costs are as follows and will be shared in
212 accordance with subarticle 3(a)(1) of this Agreement:

213 (1) The Parties have reviewed the Expansion Project costs incurred by
214 the Authority and Reclamation prior to the effective date of this Agreement. The Parties
215 acknowledge and agree that the Authority has incurred costs totaling \$_____ and
216 Reclamation has incurred costs totaling \$_____, which allowable amounts will be credited to
217 each Party's cost share obligation under this Agreement.

218 (2) Planning Costs: In an effort to reach a finding that the Expansion
219 Project is feasible, certain planning level investigations were necessary and may continue to be
220 necessary prior to commencement of construction. Such planning investigations will be
221 consistent with Reclamation's Directives and Standards in accordance with CMP 09-02.

222 (3) Environmental Mitigation and Compliance Costs: Either Party may
223 fund environmental mitigation and compliance activities associated with this Agreement. These
224 activities may include, but are not limited to, contracts for technical assistance in environmental
225 mitigation, funding of environmental mitigation commitments, and any actions to ensure

226 consistency with the State California Environmental Quality Act (CEQA) or Federal National
227 Environmental Policy Act (NEPA) laws and regulations.

228 (4) Cultural Resource Management Costs: Either Party may fund
229 cultural studies, investigations, and mitigation needs consistent with this Agreement.
230 Reclamation will be responsible for all necessary consultations with state offices, Indian tribes,
231 and interested parties pursuant to Section 106 of the National Historic Preservation Act of 1966,
232 as amended. Reclamation will be responsible for compliance and coordination with the Native
233 American Graves Protection and Repatriation Act of 1990.

234 (5) Permitting Costs: Additional permitting actions prior to
235 construction of the Expansion Project and prior to declaring the Expansion Project “Substantially
236 Complete” may be required. The Parties will jointly determine, as appropriate, the appropriate
237 Party to obtain any necessary permit(s), and the appropriate cost share for the permitting actions.

238 (6) Administrative Costs: Reclamation will reserve sufficient funding
239 from Federal appropriations to cover its administrative and management costs associated with
240 the Expansion Project. This amount will be considered part of the overall Federal contribution.
241 Reclamation will provide an estimate of the administrative costs for this Expansion Project
242 which will be reviewed with the Authority. The Authority will reserve sufficient funding to pay
243 for its administrative costs for the non-Federal share of the Expansion Project. These costs will
244 be considered contributions to the non-Federal share of the Expansion Project and reported
245 pursuant to subarticle 3(f) of this Agreement. Administrative costs include, unless otherwise
246 defined by contracts: project management, construction management, accounting and
247 administrative management, legal support and review, travel, general meetings related to the

248 Expansion Project, contract/agreement technical meetings and negotiations, and other supportive
249 services and activities necessary for the construction and operation of the Expansion Project
250 prior to the determination of Substantial Completion.

251 (7) Design Costs: Either party may pay for part or all of various design
252 costs for the Expansion Project. Reclamation will be responsible for design of the embankment
253 of the San Luis Reservoir, but the Authority may contribute funds that will count towards the
254 cost share. There may be the need for modifications during construction that may require further
255 design work. These costs will be shared in accordance with subarticle 3(a)(1).

256 (8) Construction Costs: Reclamation will serve as the procurement
257 agency for, and will manage, the primary construction contract with respect to the embankment
258 raise. All costs for this contract will be funded directly by Reclamation or with funds
259 contributed to Reclamation by the Authority.

260 (9) Other Design and Construction Costs: Either party may pay for
261 part, or all of the remaining non-embankment design and construction costs of associated
262 facilities affected or involved with the Expansion Project including, but not limited to, recreation
263 facilities, power improvements to existing facilities, improvements to pumps, transportation, and
264 other various components of the Expansion Project.

265 (c) Reclamation and the Authority have proposed using their collective funds
266 to fund parts of the Expansion Project. A contributed funds agreement may be necessary to help
267 facilitate transfer of funds to Reclamation from the Authority. Such an agreement, if needed, will
268 be an exhibit to this Agreement. Any funds contributed to Reclamation for the Expansion Project

269 will be considered part of the cost of this Expansion Project and shared in accordance with
270 subarticle 3(a)(1).

271 (d) There may be times when Reclamation provides funds to the Authority.
272 These funds will be provided through a financial assistance agreement. Any funds provided to
273 the Authority for the Expansion Project will be considered part of the cost of this Expansion
274 Project and shared in accordance with subarticle 3(a)(1).

275 (e) Within sixty (60) days of the execution of this Agreement, if not before,
276 Reclamation and the Authority will develop a Spend Plan containing mutually agreeable terms to
277 track costs and account for funds expended. The Spend Plan will be an exhibit to this Agreement.

278 (f) Reclamation and the Authority will establish, at a minimum, quarterly
279 check-ins regarding costs expended for the Expansion Project and to discuss other items,
280 including but not limited to, funding and any additional financial agreements.

281 (g) Repayment: As currently formulated, Reclamation does not anticipate the
282 need for a Repayment Contract for repayment of costs associated with the design and
283 construction of the Expansion Project. Reclamation and the Authority will, at the quarterly
284 check-ins described in subarticle (f) above, review the need for a Repayment Contract. If a
285 Repayment Contract is necessary, Reclamation will seek delegated authority from the
286 Commissioner to negotiate and execute said contract, which will be an exhibit to this Agreement.
287 The Parties will closely monitor the potential for reimbursable costs and the need for a
288 Repayment Contract and conduct any necessary financial analysis, in accordance with PEC 11-
289 01, prior to executing any such contract.

290 (1) It is anticipated that the Federal share of costs associated with the
291 Expansion Project will be used for purposes deemed to be non-reimbursable, therefore the
292 Federal share of costs associated with the Expansion Project will be non-reimbursable.

293 (2) If reimbursable benefits are identified upon the final allocation of
294 costs, Reclamation will establish appropriate recovery of said reimbursable costs consistent with
295 Reclamation law and policy.

296 (h) The duties and obligations of the Parties under this Article 3 would
297 expressly survive termination of this Agreement.

298 **MANAGEMENT OF EXPANDED RESERVOIR**

299 4. Responsibility for the costs of operation, maintenance, and replacement of B.F.
300 Sisk Dam and San Luis Reservoir will continue to be governed by agreements between the
301 United States and the State of California; the Authority and the Investors shall neither execute
302 nor be a party to any agreement with the State of California for the operation and maintenance of
303 the B.F. Sisk Dam and the Historic Reservoir or the Expanded Reservoir.

304 (a) The Parties will draft and finalize an OM&R Agreement for the Expansion
305 Project prior to the first entry of any water subject to this Agreement into any CVP facilities. All
306 future OM&R costs associated with the Expansion Project will be commensurate to each Party's
307 final investment, unless otherwise agreed to in writing by the Parties pursuant to this Agreement.

308 (b) Nothing in this Agreement shall imply or convey any rights or process to
309 the Authority or their assignees for rights or privileges to water or operations in the Federal
310 Share of Expanded Reservoir or the Historic Reservoir and the Authority agrees that it shall not
311 seek these rights outside of this Agreement.

312 (c) The Parties agree that Reclamation and DWR retain the sole discretion
313 over the operations of the Historic Reservoir.-Operations of the Expanded Reservoir will be
314 consistent with existing laws, agreements, and obligations and pursuant to the terms of this
315 Agreement and in consultation with the Authority through the Water Master/Manager.

316 (d) Federal Share of Expanded Reservoir: The management of any water in
317 the Federal Share of Expanded Reservoir is at the sole discretion of Reclamation and will be
318 managed in such a way to be consistent with State and Federal law and existing and future
319 agreements, guidelines, and programs for Federal benefits.

320 (e) Investor Share of Expanded Reservoir: The Authority agrees to use the
321 Investor Share of Expanded Reservoir consistent with the terms of this Agreement, and the
322 Parties agree that the Authority possesses the ability to partner with non-Investor parties
323 regarding the use, marketing, and/or lease of capacity within the Investor Share of Expanded
324 Reservoir and/or the storage of water in the Investor Share of Expanded Reservoir. The
325 Authority shall indemnify the United States, its officers, employees, and agents of damage or
326 claim of any nature whatsoever for which there is any legal responsibility derived from these
327 third-party agreements. Non-Project Water, Acquired Project Water, and/or Project Water will
328 be stored in the Investor Share of Expanded Reservoir and moved out of the Investor Share of
329 Expanded Reservoir subject to the terms of this Agreement. If an Investor has any water type
330 available to move into the Investor Share of Expanded Reservoir at the same time that
331 Reclamation has Project Water available to it to fill the Expanded Reservoir, and Reclamation
332 deems conveyance capacity is available, the Investor may determine which water type will be (or
333 is) stored on its behalf in the Investor Share of Expanded Reservoir. Water stored in the Investor

334 Share of Expanded Reservoir will not be subject to the San Luis Rescheduling Guidelines and
335 will not be displaced, or “spill,” upon the filling of the Federal Share of Historic Reservoir.

336 (1) Non-Project Water

337 (i) With the exception of Non-Project Water that may already
338 exist in the Historic Reservoir and/or SWP water conveyed through the SWP or under agreement
339 with Reclamation, Non-Project Water is subject to a contract for the use of excess conveyance
340 capacity in Federal facilities, pursuant to the Warren Act (Act of February 21, 1911 (36 Stat.
341 925)), in order to convey Non-Project Water to or from the Historic Reservoir.

342 (ii) Storage of Non-Project Water in the Investor Share of
343 Expanded Reservoir will not require a Warren Act Contract. However, any water that is stored in
344 the Investor Share of Expanded Reservoir that may be moved into and accounted for in the
345 Historic Reservoir will require a Warren Act Contract for storage in the Historic Reservoir.

346 (iii) For the purpose of this Agreement and consistent with the
347 San Luis Rescheduling Guidelines, unless otherwise amended, San Joaquin River Restoration
348 water recaptured consistent with permits issued by the State Water Resources Control Board, if
349 acquired by an Investor or a non-Investor party through agreement with an Investor, will be
350 treated as having the same priority as Non-Project Water and may be storable in the Investor
351 Share of Expanded Reservoir if acquired by an Investor.

352 (iv) Reclamation will not use Non-Project Water to meet
353 authorized CVP purposes as defined in subarticle 4(e)(4) of this Agreement until: (1) all
354 available Federal supplies have been used by Reclamation, and (2) the Parties first mutually

355 agree in writing to water or monetary compensation, subject to appropriations, or a combination
356 thereof, prior to its use.

357 (v) M&I Shortage – Non-Project Water in the Investor Share
358 of Expanded Reservoir will not be subject to nor accounted against an Investor’s available water,
359 as contemplated in the M&I Water Shortage Policy, as may be amended or superseded, to meet
360 minimum public health and safety needs.

361 (2) Acquired Project Water

362 (i) Reclamation will only use Acquired Project Water stored in
363 the Investor Share of Expanded Reservoir: (1) to meet the unmet minimum deliveries for south-
364 of-Delta San Joaquin River Exchange Contractors and Settlement Contractors in Shasta Critical
365 Years, the unmet minimum CVPIA allocation for south-of-Delta Level 2 refuges, and the unmet
366 public health and safety needs as defined by the M&I Water Shortage Policy as may be amended
367 or superseded; (2) concurrently with all other CVP water supplies; (3) in coordination with the
368 Water Coordinator per subarticle **XX**; and (4) with agreed upon compensation for Reclamation’s
369 use of Acquired Project Water per one of the following options:

370 a. Subject to appropriations, Reclamation will
371 compensate the total acquisition cost of the water prior to any losses or the current year market
372 rate (replacement cost) with a demonstration of proof, whichever is greater, for the full quantity
373 of Acquired Project Water taken; or

374 b. Reclamation will compensate in future water at a
375 rate of 2:1 in replacement for the water needed by Reclamation. The quantity of water returned
376 cannot exceed the amount of available storage in the Investor Share of Expanded Reservoir. Any

377 water returned will be considered Acquired Project Water in the Investor Share of the Expanded
378 Reservoir upon its return; or

379 c. Subject to appropriations, Reclamation will
380 compensate for half the total acquisition cost of the water prior to any losses or the current spot
381 market rate (replacement cost) with a demonstration of proof, whichever is greater, for the full
382 quantity of Acquired Project Water taken, and will replace the water needed by Reclamation at a
383 rate of 1:1. Any water returned will be considered Acquired Project Water in the Investor Share
384 of the Expanded Reservoir upon its return.

385 (ii) M&I Shortage – Acquired Project Water in the Investor
386 Share of Expanded Reservoir will be subject to the M&I Water Shortage Policy.

387 (3) Project Water

388 (i) Article 3(a) Water: Following the allocation of Water
389 Made Available under Article 3(a) of an Investor’s Water Service/Repayment Contract, an
390 Investor may direct the movement of allocated contract supply to the Investor Share of Expanded
391 Reservoir, up to the maximum storage capacity of the Investor Share of Expanded Reservoir.

392 (ii) Article 3(f) Water: Each Investor holds a Repayment
393 Contract that contains Article 3(f), which provides a mechanism for Reclamation to make
394 “Article 3(f) water” available. For the purpose of this Agreement, the Contracting Officer will
395 make Article 3(f) water available to Investors in addition to the Investors’ CVP contract
396 allocation in every year that Article 3(f) is available, as described below:

397 a. Following the filling of the Federal Share of
398 Historic Reservoir, Reclamation will make a determination that Article 3(f) water is available to
399 all south-of-Delta CVP Water Service/Repayment Contractors capable of taking Article 3(f)
400 water.

401 b. Upon making Article 3(f) water available,
402 Reclamation will fill the Investor Share of Expanded Reservoir and the Federal Share of
403 Expanded Reservoir on a proportionate basis in accordance with this Agreement.

404 1. Reclamation will fill the Expanded
405 Reservoir until such a time that the Investor Share of Expanded Reservoir is full or the Investor
406 Share and the Federal Share of Expanded Reservoir are full.

407 2. Any Article 3(f) water used to fill a portion
408 of the Investor Share of Expanded Reservoir will be allocated to each Investor that has available
409 capacity in the Expanded Reservoir.

410 3. Water made available under this subarticle
411 4(e)(3)(ii) and stored in the Investor Share of Expanded Reservoir can be scheduled for delivery
412 at a later date at the discretion of the Authority.

413 a. (iii) Reclamation, at its discretion, will only use
414 Project Water in the Investor Share of Expanded Reservoir (1) to meet the unmet required
415 deliveries for south-of-Delta San Joaquin River Exchange Contractors and Settlement
416 Contractors, the unmet CVPIA allocation for south-of-Delta Level 2 refuges, and the unmet
417 public health and safety needs as defined by the M&I Water Shortage Policy as may be amended
418 or superseded; (2) concurrently with all other available CVP water supplies; and (3) in

419 coordination with the Water Coordinator. No later than the initial Critical Year determination,
420 but as soon as practicable, Reclamation, in coordination with the Water Coordinator, will begin
421 scheduling available water in the Investor's Share of Expanded Reservoir for the above stated
422 purposes. If Reclamation uses Project Water stored in the Investor Share of Expanded Reservoir
423 to meet the enumerated CVP purposes above, Reclamation shall reimburse or credit the
424 Authority for the applicable OM&R costs. Therefore, the quantity of Project Water used by
425 Reclamation will be included in the calculation of that Year's Federal OM&R cost obligation
426 allocated by DWR for the Expanded Reservoir and will be deducted from the Authority's share
427 of OM&R cost obligation for the Year in which Project Water was used by Reclamation.

428 (f) Displacement of Project Water – In order to store Non-Project Water or
429 Acquired Project Water in the Investor Share of Expanded Reservoir, through the Water
430 Coordinator and in coordination with Reclamation, may move Project Water out of the Investor
431 Share of Expanded Reservoir in the following way in order of priority:

432 (1) Project Water moves from the Investor Share of Expanded
433 Reservoir to the Historic Reservoir unless the Historic Reservoir is full;

434 (2) If the Historic Reservoir is full, then the Project Water would move
435 to the Federal Share of Expanded Reservoir; and

436 (3) If the Federal Share of Expanded Reservoir is full, then the Project
437 Water can be transferred or exchanged subject to applicable statutes, regulations, guidelines, and
438 policies.

439 (4) If the Project Water cannot be transferred or exchanged, then
440 Reclamation can make the Project Water available to CVP contractors per existing CVP Water

441 Service/Repayment Contracts, and subject to applicable regulations, guidelines, and policies.

442 Reclamation will retain full discretion as to the disposition of the Project Water.

443 (g) Losses – All water in the Investor Share of Expanded Reservoir will be
444 subject to water loss criteria that is applied with proportionality based on reservoir losses caused
445 by evaporation and seepage and charged to Reclamation as part of its joint operations with
446 DWR.

447 (h) Points of Delivery

448 (1) Any Project Water, as defined by this Agreement, will be delivered
449 at the point(s) of delivery as specified in the applicable Water Service/Repayment Contract.

450 (2) Any Acquired Project Water or Non-Project Water will be
451 considered delivered to the Investor Share of Expanded Reservoir and will be accounted for
452 consistent with all applicable State and Federal laws, contracts, and policy.

453 (i) Operation and Maintenance Costs of the San Luis Reservoir – As a result
454 of the Expanded Reservoir, Reclamation may have an increased share of the cost of the operation
455 and maintenance of the B.F. Sisk Dam and San Luis Reservoir. The Parties agree that costs will
456 be paid consistent with existing laws, agreements, and policy, as may be amended or superseded.
457 Further, the Authority agrees it will specifically pay for OM&R costs associated with the
458 Investor Share of Expanded Reservoir; the details regarding such payment and costs will be
459 defined in an OM&R Agreement, which will be an Exhibit to this Agreement.

460 (j) Coordination – Prior to the operation of the Expanded Reservoir,
461 Reclamation and the Authority will develop a Coordination Agreement to coordinate and

462 communicate and define roles and responsibilities prior to the storage of water in the Expanded
463 Reservoir, which will be an Exhibit to this Agreement. The Coordination Agreement will,
464 among other things:

465 (1) Define the frequency of coordination between the Parties.

466 (2) Establish a Reclamation approved accounting methodology and
467 system of accounting for water in the Investor Share of Expanded Reservoir;

468 (3) Provide for a dispute resolution process.

469 (4) Provide for a Water Master/Manager. The Parties agree that a
470 Water Master/Manager will be provided and paid for by the Authority who will coordinate with
471 Reclamation regarding the management of any water moving into, stored in, or moving out of
472 the Investor Share of Expanded Reservoir, who will account for the water in the Investor Share
473 of Expanded Reservoir, and who will be responsible for the provisional data and coordinating
474 with Reclamation on reconciliation at the end of the contract year and prior to initial allocations
475 of the following Year.

476 (5) Describe the frequency and methods through which Reclamation
477 will share forecasting and allocation information with the Water Master/Manager on behalf of
478 the Authority and through which the Parties will acquire access to conveyance capacity.

479 **EXISTING CONTRACTS**

480 5. Nothing in this Agreement, in any way, alters, changes, or amends existing Water
481 Service/Repayment Contracts with the United States.

533 not appropriated or allotted.

534 **OFFICIALS NOT TO BENEFIT**

535 11. No Member of or Delegate to the Congress, Resident Commissioner, or official of

557 the rules and regulations promulgated by the Secretary of the Interior under Federal reclamation
558 law.

559 **EQUAL EMPLOYMENT OPPORTUNITY**

560 16. The following language is required by Executive Order No. 11246 of September
561 24, 1965, in all government contracts unless and until it is superseded or amended.

562 During the performance of this Agreement, the Authority agrees as follows:

563 (a) The Authority will not discriminate against any employee or applicant for
564 employment because of race, color, religion, sex, sexual orientation, gender identity, or national
565 origin. The Authority will take affirmative action to ensure that applicants are employed, and that
566 employees are treated during employment, without regard to their race, color, religion, sex,
567 sexual orientation, gender identity, or national origin. Such action shall include, but not be
568 limited to the following: employment, upgrading, demotion, or transfer; recruitment or
569 recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and
570 selection for training, including apprenticeship. The Authority agrees to post in conspicuous
571 places, available to employees and applicants for employment, notices to be provided by the
572 Contracting Officer setting forth the provisions of this nondiscrimination clause.

573 (b) The Authority will, in all solicitations or advancements for employees
574 placed by or on behalf of the Authority, state that all qualified applicants will receive
575 consideration for employment without regard to race, color, religion, sex, sexual orientation,
576 gender identity, or national origin.

577 (c) The Authority will not discharge or in any other manner discriminate
578 against any employee or applicant for employment because such employee or applicant has
579 inquired about, discussed, or disclosed the compensation of the employee or applicant or another
580 employee or applicant. This provision shall not apply to instances in which an employee who has
581 access to the compensation information of other employees or applicants as a part of such
582 employee's essential job functions discloses the compensation of such other employees or
583 applicants to individuals who do not otherwise have access to such information, unless such
584 disclosure is in response to a formal complaint or charge, in furtherance of an investigation,
585 proceeding, hearing, or action, including an investigation conducted by the employer, or is
586 consistent with the Authority's legal duty to furnish information.

587 (d) The Authority will send to each labor union or representative of workers
588 with which he has a collective bargaining agreement or other contract or understanding, a notice,
589 to be provided by the agency Contracting Officer, advising the labor union or workers'
590 representative of the Authority's commitments under section 202 of Executive Order No. 11246
591 of September 24, 1965, and shall post copies of the notice in conspicuous places available to
592 employees and applicants for employment.

593 (e) The Authority will comply with all provisions of Executive Order No.
594 11246 of Sept. 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of
595 Labor.

596 (f) The Authority will furnish all information and reports required by
597 Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of
598 the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and
599 accounts by the Contracting Agency and the Secretary of Labor for purposes of investigation to
600 ascertain compliance with such rules, regulations, and orders.

601 (g) In the event of the Authority's noncompliance with the nondiscrimination
602 clauses of this Agreement or with any of such rules, regulations, or orders, this Agreement may

603 be canceled, terminated or suspended in whole or in part and the Authority may be declared
604 ineligible for further Government contracts in accordance with procedures authorized in
605 Executive Order No. 11246 of Sept. 24, 1965, and such other sanctions may be imposed and
606 remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule,
607 regulation, or order of the Secretary of Labor, or as otherwise provided by law.

608 (h) The Authority will include the provisions of paragraphs (a) through (h) in
609 every subcontract or purchase order unless exempted by the rules, regulations, or orders of the
610 Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September
611 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The
612 Authority will take such action with respect to any subcontract or purchase order as may be
613 directed by the Secretary of Labor as a means of enforcing such provisions, including sanctions
614 for noncompliance: Provided, however, that in the event the Authority becomes involved in, or is
615 threatened with, litigation with a subcontractor or vendor as a result of such direction, the
616 Authority may request the United States to enter into such litigation to protect the interests of the
617 United States.

618 COMPLIANCE WITH CIVIL RIGHTS

619 16. (a) The Authority shall comply with Title VI of the Civil Rights Act of 1964
620 (Pub. L. 88-352; 42 U.S.C. § 2000d), the Rehabilitation Act of 1973 (Pub. L. 93-112, Title V, as
621 amended; 29 U.S.C. § 791, et seq.), the Age Discrimination Act of 1975 (Pub. L. 94-135, Title
622 III; 42 U.S.C. § 6101, et seq.), Title II of the Americans with Disabilities Act of 1990 (Pub. L.
623 101-336; 42 U.S.C. § 12131, et seq.), and any other applicable civil rights laws, and with the
624 applicable implementing regulations and any guidelines imposed by the U.S. Department of the
625 Interior and/or Bureau of Reclamation.

626 (b) These statutes prohibit any person in the United States from being
627 excluded from participation in, being denied the benefits of, or being otherwise subjected to
628 discrimination under any program or activity receiving financial assistance from the Bureau of
629 Reclamation on the grounds of race, color, national origin, disability, or age. By executing this
630 Agreement, the Authority agrees to immediately take any measures necessary to implement this
631 obligation, including permitting officials of the United States to inspect premises, programs, and
632 documents.

633 (c) The Authority makes this agreement in consideration of and for the
634 purpose of obtaining any and all Federal grants, loans, contracts, property discounts, or other
635 Federal financial assistance extended after the date hereof to the Authority by the Bureau of
636 Reclamation, including installment payments after such date on account of arrangements for
637 Federal financial assistance which were approved before such date. The Authority recognizes
638 and agrees that such Federal assistance will be extended in reliance on the representations and
639 agreements made in this article and that the United States reserves the right to seek judicial
640 enforcement thereof.

641 (d) Complaints of discrimination against the Authority shall be investigated
642 by the Contracting Officer's Office of Civil Rights.

643

CERTIFICATION OF NONSEGREGATED FACILITIES

644 17. The Authority hereby certifies that it does not maintain or provide for its
645 employees any segregated facilities at any of its establishments and that it does not permit its
646 employees to perform their services at any location under its control where segregated facilities
647 are maintained. It certifies further that it will not maintain or provide for its employees any
648 segregated facilities at any of its establishments and that it will not permit its employees to
649 perform their services at any location under its control where segregated facilities are
650 maintained. The Authority agrees that a breach of this certification is a violation of the Equal
651 Employment Opportunity clause in this Agreement. As used in this certification, the term
652 "segregated facilities" means any waiting rooms, work areas, rest rooms and wash rooms,
653 restaurants and other eating areas, time clocks, locker rooms and other storage or dressing areas,
654 parking lots, drinking fountains, recreation or entertainment areas, transportation, and housing
655 facilities provided for employees which are segregated by explicit directive or are in fact
656 segregated on the basis of race, creed, color, or national origin, because of habit, local custom,
657 disability, or otherwise. The Authority further agrees that (except where it has obtained identical
658 certifications from proposed subcontractors for specific time periods) it will obtain identical
659 certifications from proposed subcontractors prior to the award of subcontracts exceeding \$10,000
660 which are not exempt from the provisions of the Equal Employment Opportunity clause; that it
661 will retain such certifications in its files; and that it will forward the following notice to such
662 proposed subcontractors (except where the proposed subcontractors have submitted identical
663 certifications for specific time periods):

664

665 NOTICE TO PROSPECTIVE SUBCONTRACTORS OF REQUIREMENT FOR
666 CERTIFICATIONS OF NONSEGREGATED FACILITIES

667 A Certification of Nonsegregated Facilities must be submitted prior to the award of a subcontract
668 exceeding \$10,000 which is not exempt from the provisions of the Equal Employment
669 Opportunity clause. The certification may be submitted either for each subcontract or for all
670 subcontracts during a period (i.e., quarterly, semiannually, or annually). Note: The penalty for
671 making false statements in offers is prescribed in 18 U.S.C. § 1001.

672

MEDIUM FOR TRANSMITTING PAYMENTS

673 18. (a) All payments from the Authority to the United States under this
674 Agreement shall be by the medium requested by the United States on or before the date payment
675 is due. The required method of payment may include checks, wire transfers, or other types of
676 payment specified by the United States.

677 (b) Upon execution of the Agreement, the Authority shall furnish the
