

UNITED STATES  
DEPARTMENT OF THE INTERIOR  
BUREAU OF RECLAMATION  
COLUMBIA BASIN PROJECT - WASHINGTON

This revision, consisting of a title page, this sheet showing official actions taken with respect to the plat, and the following General Map sheets outlining the farm unit boundaries, together with 3 supplemental sheets showing detailed drawings and descriptions of each farm unit, comprises the Fourth revision of the farm unit plat of Irrigation Block 20 of the Columbia Basin Project, dated July 22, 1957, and filed for record in the County Auditor's office of Franklin County, Washington on August 6, 1957, Auditor's file No. 186432. Previous revisions were made on January 9, 1959, September 25, 1959 and August 14, 1961.

The revisions in the farm unit plat, Irrigation Block No 20, consist of:

Farm Unit	New No.	Dwg. No.	F. U. Bdy Change	Lateral	Drain	Road	Land Class	Remarks
149		27	X					Eliminated
152	218	27	X	X				Added portion of Unit 149. Added
161	219	27-28	X					" " " " "
		7						Borrow Area added adjacent F.U. 203

employed mean: T - Topography; S - Soil. The use of the symbols indicates the reason that the land was tentatively classed other than in class 1. Lands in class 6 are regarded as non-irrigable. Lands designated as "high" are regarded as being at an elevation beyond the economical reach of the distribution system being provided for the irrigation block. The State of Washington and appropriate counties have furnished, upon the solicitation of the United States, information showing changes in alignment and rights-of-way for public highways and roads under their jurisdiction. To the extent that it has been practicable so to do, these data have been correctly placed and shown on this revised plat. The final irrigable area established for each farm unit will be announced and fixed for the purposes of water service and project construction repayment by an announcement issued by the Secretary of the Interior to the Irrigation District prior to the end of the development period of the block as provided for in the repayment contract of October 9, 1945, as amended, between the United States of America and the South Columbia Basin Irrigation District, recorded in Franklin County, Washington in Volume 1 of Columbia Basin Documents, pages 1 to 21, inclusive.

In considering these revisions, investigations and studies were made of the lands in the block and the project as a whole with the object of determining the area, shape and boundaries of the various farm units in this block, having in mind the requirements of the Columbia Basin Project Act (57 Stat. 14) and of Chapter 275, Laws of Washington, 1943, as amended, and of the policies established thereunder by the Secretary of the Interior. Based on these studies and investigations and all relevant data brought forward since the filing of the farm unit plat, I find that the units as herein revised are of sufficient acreage for the support of an average-sized family at a suitable living level and have appropriate shapes and boundaries, having in mind the character of the soil, topography, location with respect to the irrigation system, and all other factors that are relevant to the determination of the area and boundaries of the farm units. Accordingly, acting pursuant to the authority delegated to the Commissioner of Reclamation by the Secretary of the Interior, as shown by Departmental Order 2765, dated July 30, 1954, and redelegated to me by the Commissioner of Reclamation by Commissioner's Order 34, dated October 6, 1954, and Commissioner's Order 34 Amendment 1, dated October 29, 1954, all as recorded in the Auditor's office of Franklin County, Washington, in Volume 87 of Columbia Basin Documents at page 44, and pursuant to the provisions of the Columbia Basin Project Act as amended, and Chapter 275, Laws of Washington, 1943, as amended, and the repayment contract of October 9, 1945, as amended, between the United States of America and the South Columbia Basin Irrigation District, I hereby revise the farm unit plat of Irrigation Block 20, dated July 22, 1957, by (1) Replacing the General Map sheets of that plat with the General Map sheets of this plat and (2) Replacing supplemental sheets 3, 18 and 19 of the plat revision recorded September 25, 1959 as revised with sheets 1 through 3 respectively, of this plat.

IN WITNESS WHEREOF, I have signed this instrument this \_\_\_\_\_ day of \_\_\_\_\_, 1962.

The General Map sheets show in tabular form, the irrigable area in each farm unit by classes of land and the portions within each farm unit required for rights-of-way or designated as class 6 (non-irrigable) or "high". The land classes indicated in the tabulation on the maps are the tentative classifications made under the provisions of the Federal Reclamation Laws, these being the Act of June 17, 1902 (32 Stat. 388) and acts amendatory thereof and supplementary thereto. The classification symbols
