## INDEX

### Release and Page

#### A

A, B, C's of Safety	61-14
A Production Prophecy, the West	91-10
Access Ladder	72-6
Accident Prevention Pays Big Dividends	71-9
Additive: Oil	57-21
Administration:	
Director and manager teammates	48-1
Ditchrider trainee program	50-1
Project operation	48-20
Agents:	
Concrete bonding	29-26
Epoxies	35-5, 35-14
Agitator: Weed sprayer	97-110
Airboat: Weed spraying	43-11, 97-120
Air: Compressed	115-9
Aircraft Wheels:	
Adaptation to industrial tractor	57-1
Suspended sediment	34-5
Airhammer: Use as piledriver	41-22
Air Filter Elements: Cleaning	70-17, 122-15
Airlift Installation	72-13
Air Loss: Vehicle brake systems	41-15
Air-suction Gun: Construction and use	2-2
Air Tools: Maintenance	31-1
Air Valve Structures: Insulation	43-9
Alarms:	
Compressed air systems	34-2
Automatic message system	126-19
Algae Control:	
Antifouling paint	40-3, 51-14
Cleaning pump	104-17
Concrete flumes	6-13, 29-19
Copper base paint	31-5
Copper sulfate	97-159
Discussions	97-158
Removal	112-1
Solvent mixers	97-166

Release and Page

Algae Control:--Continued	
Solvent pumps and motors	97-171
Studies	19-10
Algae: Controlling growth	48-24
Algorithms--Discharge	117-27
Alternators: What you should know	81-14
Aluminum Irrigation Tubing, Repairing	94-7
Aluminum Markers: Transmission towers	29-21
Aluminum Wiring	108-15
Anchors: Self-expanding concrete	22-10
Anhydrous Ammonia:	
Handling precautions	114-16
Used to stop leaks in concrete pipe	52-11, 67-1
Animal Burrows: Filling	52-25
Animal Removal:	
Canals	12-8
Nutria	46-1
Answers to Your Questions About Safety Belts	133-8
Antifouling Paint:	
Algae control	40-3, 51-14
Antifreeze	105-16
Anti-hunt Device:	
Gate control, automatic	79-12
Antiroll Bars: Tractor	43-21, 62-1
Appearance Program	68-1
Aquatic-type Weed Control:	
Chemical control	47-10, 94-14, 97-158, 99-26
Cost and effectiveness	64-1
Discussion	97-157
Herbicide storage	97-238
Mechanical control	97-174
Aqueduct Cleaning	15-1, 84-1, 104-17
Aromatic Solvents:	
Crayfish control	19-7
Mixers	97-169, 99-28
Pumps, motors	97-108, 97-171
Arresting Surging Water	42-14
Arrestors: Lightning protection	51-8
Askarel, Disposal	108-9

Asphalt Canal Linings: (See asphalt membranes and prefabricated asphalt canal linings)	
Asphalt Distributor:	
Equipment improvement	46-6
Asphalt: Rubberized, crack sealer	105-5
Asphaltic Membrane Canal Linings:	
Cleaning exposed prefabricated type	4-4
Evaluation	53-8, 66-20
Repairing buried, hot-applied type	15-9
Asphaltic Tape Seal: Leaking gates	70-14
Asphalt Sprayers: Truck mounted	17-5
Attachment:	
Core wall machine	59-10
Forklift	77-13
Augers:	
Safety guide and lock	38-15
Safety shutoff switch	42-5
Aurand Cleaning Tool	21-8
Automatic Controls:	
Canal checks	20-1, 32-8
Gate control, anti-hunt device	79-12
Gravity irrigation system	32-2, 43-17
Greasing equipment, fishscreens	59-1
Overflow siphons	66-22
Pipelines	26-1
Automation:	
Irrigation pipe and	95-1
Irrigation systems	58-19
Water systems:	87-1, 117
Centralized manual control	117-17
Centralized (supervisory) controls:	
Lower Colorado River facilities	117-7
Salt River Project canals	117-1
Tehama-Colusa	117-17
Welton-Mohawk	117-5
Corning Canal	117-12
Demand operation	117-12
Digital control systems	117-9, 117-19
EL-FLO (Electronic Filter Level Offset)	117-13

Release and Page

Automation:--Continued	
Mechanical-electronic controllers:	117-22
Colorado-Big Thompson Project	117-22
Sluice gate controller	117-23
Water Systems Management Workshop	101-7, 125-1
Automobiles: (See vehicles)	
Awareness--The key to successful operation and maintenance	101-7

B

Backhoes:	
Hydraulic controlled and operated	2-9
Large bucket	53-19
Yardstick	54-20
Bag: Litter	57-23
Ball Bearing Purger	39-3
Band Clamp: Metal pipe	48-19
Bank Repair:	
Compaction	4-8
Slopes	7-2, 10-2, 40-6
Bank slopers	7-2, 10-2, 40-6
Barbed Wire:	
Carrier modification	89-15
Fences, repairing	85-9
Pipe crossing barrier	31-14
Barrels:	
Buoys for swimmer protection	36-14
Hooks, safety	74-13
Liquid removal by air pressure	42-16
Barriers:	
Pipeline crossings	31-14
Posts, hinged	44-15
Bars: Antiroll, tractor	43-21
Baseplates: Current meter rod	29-31
Batteries:	
Car battery explosions	101-17
Care	28-15
Care and storage	22-23

Release and Page

Batteries:—Continued	
Charging	30-2
Maintenance	21-23
Rejuvenator	4-13
Remote radio repeaters, VHF	73-18
Reverse current protection	30-2
Starting aids	55-18
Beams: Railroad car for bridges	33-6
Bearings:	
Fewer pump bearing failures	129-21
Maintenance	39-3
Marking races, shafts and housing	42-8
Noise detector	43-12
Preventing clogging of water cooling lines	30-9
Purger for ball bearings	39-3
Reducing damage to wheel bearings	27-8
Belle Fourche Ditcher	17-14
Bells: Electrical sounding	6-10
Belt Replacement: Vehicle fans	38-12
Benders: Reinforcing steel	42-21
Bentonite	103-14
Berm Prevention: Canals	39-1
Bikeway	99-21
Binding Loads with Winches	48-22
Birds:	
Discouraging nesting swallows	5-9
Preventing defacement of posts	30-11
Blades: Snow plow, made from old tanks	46-5
Blade Spreader Box: Dozer	29-22
Blended Earth Canal Lining: Construction	9-3
Blocks:	
Precast concrete	23-18
Hardwood protection on radial gates	38-7
Blowoff Structures: Insulation	43-9
Board of Control: Project operation	48-20
Boards: Portable tools	17-1
Boating:	
Floating breakwater system	113-9
Golden Rule	84-4
Safe tips	91-13
Watersports laws	57-24

Release and Page

Boats:	
Boston whalers, special use	93-14
Clearing logs from reservoirs	29-33
Modification for weed spraying	61-16, 97-122
Towbar and fair lead	66-26
Bolt:	
Loosening: Paving breaker	17-7
Steel stud	114-6
Bonding Agents:	
Concrete	29-26
Epoxy resins	34-5, 35-14
VR-3, VR-6, and coal-tar epoxy	52-23
Booms:	
Diversion dam, boat boom	83-15
Hoist, pickup mounted	28-10, 84-10
Hydraulic, pickup mounted	33-4, 97-89, 97-125
Lifting and hauling	33-3
Log	4-7
Portable hoist	84-11
Safety shield	27-15
Trash	4-7
Trash and log deflectors	4-6, 97-205
Universal joints for	41-17
Weed burner	9-10, 97-141
Weed burner, counterweighted	21-1
Weed disk	97-179
Weed spray, hydraulic	97-97, 97-107
Weed spray, manual	97-115
Weed spray, truck mounted	97-89, 97-125
Boom Supports: Wire rope troubles	55-13
Booths: Daylight movie projection	7-6
Boundary Lines:	
Corner monuments	29-10
Markers	42-10
Boxes:	
Delivery	126-17
Spreader, on dozer blade	29-22
Weir	99-12
Weir, Yakima type	2-12

Release and Page

Boxes:--Continued	
Brackets:	
Floodlight on vehicle bumper	9-6
Tailpipe	47-23
Walkplank on weir structure	38-8
Brake Systems:	
Air loss in vehicles	41-15
Powersaw, electrodynamic	41-13
Brewster Flats Unit	119-20
Bridges:--Continued	
Dry mix cement in bags anchors down approach slopes	109-14
Farm type, redecking	34-18
Highway crossing pads	27-3
Prestressed concrete	33-15, 48-25, 52-26
Protection, structural concrete	56-1
Railroad car beams	33-6
Replacement program	119-13
Resurfacing walkways with epoxy	109-15
Sealant	112-17
Broadcast Seeders	97-15
Brush Control:	
Cutter	27-1, 97-147
Drag	27-1
Mowers	97-147
(See also weed control, prevention and disposal)	
Brush Cutters	27-1, 43-15
Brushes, Contact Cement, Preservation	44-20
Bubbler Gages:	
Improvement	43-14
Water level	35-8
Bucket Seats	128-17
Buckets:	
Demossing	4-16
Dredger raising assembly	31-12
Gradall attachments	4-16
Weed disposal	97-229
Building, Utility: Pole type	52-15

Release and Page

Bulldozers:	
Blade spreader box	29-22
Radial gate installed with	15-4
Track sealants	31-11
Bumpers: Floodlight bracket	9-6
Buoys:	
Marking, self-adjusting	71-8
Mooring	66-8
Swimmer protection	36-14
Buried Asphalt Canal Linings:	
Evaluation	53-8, 66-20
Hot-applied membrane repair	15-9
Buried Pipe Stops Agonizing Water Losses	83-12
Burners (Weed Control):	
Booms	21-1, 97-143
Butane	97-143
Dry weeds	97-139, 97-200
Fuel oil types	97-143, 97-201
Land-type weeds	97-139
Lightweight, aluminum	44-8
LP gas	97-140, 97-201
Spray unit converted	24-7
Trailer mounted	97-140
Truck mounted	9-10, 97-140
Weed burner head	49-21
Burrow Builder: Rodent control	51-16
Burrowing Animal Control:	
Filling burrows	52-24
Shotcrete canal linings	17-9
(See also crayfish control)	
Bypass Channel: Plastic lined	31-13

C

CA-50 Paint: Flume scour protection	6-13
Cable:	
Guards on checks	25-14
Lubrication	48-4
Socketing	17-4
Stainless steel performance	27-4
Supplementary guardrail protection	23-24

Release and Page

Cable:--Continued	
Underground electrical cable--gopherproof	111-5
Wire rope	19-13, 111-1
Calculators: Programmable handheld	124-1
Canadian Thistle Control	49-24
Canal:	
Animal removal	12-8
Berming prevention	39-1
Checks, automatic control	20-1, 32-8
Cleaning	20-14, 51-1, 75-24, 83-3
Covers, gradation	118-14
Drop chutes, slipform	86-7
Erosion prevention	39-1, 118-14
Fencing	80-11
Lining small lateral	10-4
Priming	41-1
Puddling	41-1
Roadways	51-3
Safety nets	24-9, 51-11
Safety program, "Dippy Duck"	58-1
Scraper, cleaning concrete canal linings	69-24, 97-197
Sealant:	118-1
Flyash	118-11
Soils	118-1
(See also lined and unlined canals)	
(See weed control, disposal and prevention)	
Self-escape form	17-3
Silt and sand excluders	77-1
Sink hole repair	124-11
Wall, gopher	80-6
Canal Linings:	
Lower cost canal linings	10-6
Mechanical cleaning machine	85-15
Placing concrete for	78-1
Publications	24-19, 74-22
Repair (see canal lining repair)	
Rodent control	17-9

Release and Page

Canal Linings:--Continued	
Suitability of soils for earth linings	2-15, 118-14, 126,9
See by types:	
Asphalt membrane	
Bentonite	
Compacted earth	
Plastic	
Portland cement concrete	
Portland cement mortar	
Prefabricated asphaltic	
Shotcrete	
Tucumcari Project lining program	45-10
Canal Lining Repair:	
Beach belt conveyor	93-10
Concrete, preparation for	2-2
Concrete with cofferdam	4-2
Concrete with shotcrete	30-4
Crack sealer, rubberized asphalt	105-5
Epoxy sealer	110-1
Hot-applied asphalt membrane, buried type	15-9, 53-8
Methods and materials	73-1
Mud-jacking concrete	15-9
Quicklime stabilizes lining	93-1
Resurfacing concrete	18-1
Canal Maintenance:	
Bank slopers	10-2, 40-6
Berming	39-1
Cleaning	20-14, 51-1, 75-24
Compacting canal side slopes	4-8
Erosion protection	39-1
Filling animal burrows	52-24
Roadways	51-3
Canal Seepage:	
Location by electrical logging	35-1
Canal Side Slope Compaction	4-8
Carbon Monoxide:	
Aggravates heart	102-18
Creeping killer	75-19
Cards: Equipment servicing record	15-7
Carrier: Jerry can and plastic jug	92-13

	<u>Release and Page</u>
Carrying Racks: Water meters	22-12
Cartoons: Selling maintenance	31-cover
Catchers:	
Dog	29-11
Oil, crankcase	54-18
Cathode-ray Tube	117-2
Cathodic Protection:	
Anode bed-reservoir	104-5
Buried metals	21-33
Performance	28-1
Submerged metals	21-23, 45-1
Cattails: Control in channels	47-10
Cattle Guards:	
Concrete block type	25-9
Curb angles	51-25
Modification	81-10
On operating projects	13-1
Replacement with gates	23-23
Weed control pasturing	97-43
Catwalks	120-14
Centralized Manual Control	117-17
Cements, Contact Type, Brush Preservation	44-20
Center Pivot:	
Inspection	115-13
Wheel rut reduction	115-15
Centralized (Supervisory) Controls—See Automation	
Chain—Camaloy	108-3
Chain Hoists, Inspection	70-21
Chains: Weed control	97-174
Channel Maintenance	
Drainage	21-24, 34-11
Temporary lined bypass	31-13
Charts:	
Protectors, plastic	28-23
Pumps	98-4
Winding machine	44-10
Checkboard Removal	51-8
Checks:	
Automatic control gates	20-1, 32-8, 116
Flashboard improvements	17-16
Jig for drilling	43-16

Release and Page

Checks:--Continued	
Precast cut-off walls	47-12
Structure improvement	17-16
Wire rope (cable) guards	25-14
Chemical Control Aquatic Weeds:	
Antifouling paint	51-14
Aromatic solvents	97-126, 97-166, 97-172, 99-26
Copper sulfate	97-159
Herbicide storage	97-238
Metering solvents	97-171
Chemical Dispensers: Automatic	28-18
Chemical Skin Protects Buildings, Monuments	82-15
Chemical Spills:	
Contain	119-15
Control	119-14
Cleanup	119-15
Emergency response	119-16
Chemicals:	
Anhydrous ammonia stops pipe leaks	52-11
Canada thistle control	49-24
Some simple tests	129-17
Chemical Trailer	129-19
Chemical Weed Control:	
Moisture and temperature important	80-20
Submersed waterweeds	52-14
Chemical Weed Control--Aquatic Types:	
Aromatic solvents	97-166, 99-26
Cattails	47-10
Copper sulfate	97-159, 99-27
(See also chemical weed control)	
Chemical Weed Control:	
Sodium chlorate	99-30
Soil sterilants	97-42
Chlorine Gas--A Hazard	78-19, 105-15
Cinders: Crayfish control	17-16
Circular Saws: Storage safety	36-7
Clamps:	
Flowmeter	40-10
Metal drum lifting	42-16
Metal pipe	48-19

Release and Page

Cleaning:	
Air filter elements	70-17
Aqueducts	15-1
Canals, laterals and ditches	20-14
(See also cleaning lined and unlined canals)	
Concrete pipe interior	15-1
Concrete, surfaces	2-2
Ditches with mobile crane	94-12
Drains	2-5
Foundation drains	33-12, 44-17
Gasoline, use of	27-10
Paint removal	21-8
Pipe mechanically	34-3
Portland cement concrete	51-1
Roadside drainage ditches	83-3
Sandblast gun	2-2
Tractor-shovel bucket	67-12
Trashracks	92-7
Cleaning Lined Canals:	
Exposed prefabricated asphaltic	4-4
Portland cement concrete	38-17
Scraper for hard surface linings	63-19, 97-195
Cleaning Tools:	
Aurand, metal surfaces	21-8, 36-10
Foundation drains	33-12, 44-17
Sandblast gun	2-2
Vacuum gun	2-2
Cleaning Unlined Canals:	
Tractor-mounted "V" plow	20-14
Clearing Floating Logs: Reservoirs	29-33
Climbers: "Cyclone" type fence	15-6
Climbing Fixed Ladders	86-5
Closed-drain Systems: Clearing	63-14
Clothing Shelf: Trucks	59-14
Clutches:	
Tractor control lever modification	7-8
Coal-tar Enamel (see protective coatings)	
Cofferdams:	
Portable, concrete lining repair	4-2
Collars: Split ring, shaft support	29-32
Colored Tape: Marking pipelines	7-3

Release and Page

Columbia Basin Irrigation Project:	
Ditchrider trainee program	50-1
Communication	114-18
Compacted Earth Canal Linings:	
Blended soils	9-3, 118-14
Construction, thick type	6-7
Small canals and laterals	9-4
Suitability of soils	2-15, 118-1, 126-9
Compacting Canal Side Slopes	4-8
Compaction Equipment: Canal side slopes	4-8
Completion Date: Marking structures	5-6
Compressed Air Systems:	
Accidents	41-15
De-icing	4-14
Low-pressure alarm	34-2
Compressors:	
Maintenance, portable	63-11
Rotary	2-8
Truck mounted	29-23
Computers:	
Minicomputer	122-6
Terminology	122-12
Concrete:	
Algae control on flumes	6-13
Anchors, self-expanding	22-10
Bonding agents	29-26
Bridges, prestressed	33-15, 48-25
Canal linings, placing	78-1
Canal lining repairs	4-2, 30-4, 73-1, 105-5, 110-1
Canal lining resurfacing	18-1
Canal linings, Tucumcari Project	45-10
Cleaning surfaces	2-2, 63-19
Discouraging nesting birds	5-9
Highway crossing pads	27-3
Insulation during construction	24-12
Maintenance painting	22-16
Manual, USBR	12-10
Mixes for small jobs	77-10
Precast blocks	23-18

Release and Page

Concrete:--Continued	
Precast structures	6-3, 36-1, 47-12
Prestressed bridges	52-26
Quality in production	4-11, 11-1
Quality, movie	4-11
Ready-mixed	24-18
Repair	2-2
Repair with epoxy resins	35-14, 76-1
Roller compacted concrete	127-8
Structure repairs with epoxy	82-1
USBR Manual	12-10
Weather protection	9-2
Concrete Anchors: Self-expanding	22-10
Concrete Blocks:	
Cattle guards	25-9
Minor structures	23-18
Concrete Bridges: Prestressed	33-15, 48-25
Concrete Canal Linings:	
(see portland cement concrete canal linings)	
Mechanical cleaning machine for	85-15
Scraper and sweeper	63-19, 97-195
Void detector	104-1
Concrete Crossing Pads: Highways	27-3
Concrete Flumes: Algae control	6-13, 29-19
Concrete Hoppers:	
Core-wall machine attachment	59-10
Concrete Manual:	
U.S. Bureau of Reclamation	12-10
Concrete-nylon Mat System for Erosion Control	101-1
Concrete Pipe:	
Cleaning interior	15-1
Hinged metal repair sleeve	67-19
Joint repair	21-19, 75-1
Concrete Pipe Lines:	
Sealing with anhydrous ammonia	52-11, 67-1
Concrete Sluiceway and Stilling Basin Repair	76-1
Condensation Control	124-14
Constant Head Orifice:	
Operating characteristics	52-17
Surge arrester	42-14
Contact Cement: Brush preservation	44-20

Release and Page

Containers:	
Fuel-mixing	33-7
Refuse	25-20
Control:	
Algae (see algae)	
Aquatic weeds (see aquatic weeds)	
Concrete quality	4-11, 11-1
Crayfish (see crayfish)	
Erosion (see erosion)	
Land weeds (see land-type weeds)	
Moss (see aquatic weeds)	
Pondweeds (see aquatic)	
Rodents	9-5, 17-9
Rust-wells	102-17
Vegetation in dummy joints	58-15
Vegetation, soil sterilents	61-7, 97-42
Control Piping: Plugging prevention	19-1
Controls:	
Distribution system, electronic	22-1
Diversion dam outlets, remote	32-2
Dust-free relays	59-17
Float-actuated cam, changes canal water level	58-6
Gates, automatic	20-1, 32-8, 43-17, 117
Identification nameplates	74-1
Pipelines, automatic	26-1
Water systems	58-19, 117
Convenience Outlets: Electrical	24-17
Copper-base Paint: Algae control	31-5
Copper Monuments: Land boundaries	29-10
Copper Sulfate:	
Algae control	37-114, 97-159, 99-27
Boston whalers, special use	93-14
Core Wall Machine:	
Concrete hopper attachment	59-10
Corrosion:	
Metal protection	21-33
Pipe protection	63-17
Corrugated-metal Pipe:	
Performance	5-10
Water level recorder stand	12-11

	<u>Release and Page</u>
Counterweight: High pressure gates	71-12
Counterweighted Booms:	
Sprayers and burners	21-1
Counterweighted Cover, Trashrack Deck Opening	44-14
Covers:	
Counterweighted, deck openings, trashrack	44-14
Expanded metal	28-17
Lifting device	105-12
Lock for	32-13
Manhole, vandal resistant	67-13
Padlock for	17-2
Stock pond	115-6
Well hole metal plate	33-19
Crack Gauge	62-18
Cranes:	
Boom safety shield	27-15
Gantry, track cleaner	72-7
Hazards	84-6, 98-8
Hook failure	85-18
Mobile, setting up	106-13
Pickup mounted, hydraulic	33-4
Repairing	62-15
Selection of	52-1
Truck mounted, hydraulic	2-9
Crayfish Control:	
Aromatic solvents	19-7
Cinders	17-16
Crop Tolerances:	
Herbicides	52-21
Crosscut Saw:	
Powered, portable	2-4
Safety guard for	30-13
Crossing Barriers: Pipelines	31-14
Crossing Pads:	
Concrete, for highways	27-3
Current Meters:	
Carriage for	32-19
Flow measurement	87-9
Modification	27-7
Rod baseplate	29-31
Current Protection:	
Charging batteries	30-2

Release and Page

Curves on Canals:	
Erosion prevention	39-1
Cutoffs:	
Plastic	29-1, 46-12
(See also plastic canal linings)	
Cutoff Walls:	
Irrigation structures	21-9
Precast for check structures	47-12
Cutters:	
Aquatic weeds	97-184
Brush	27-1, 43-15
Grass	54-17
Rotary, brush and weeds	97-149
Shaft packing	34-1
Weed	27-1
Weed, truck mounted	7-10
Cutting Jigs: Gaskets	6-9
Cutting Shears: Steel	33-2
Cutting Table: Oxy-acetylene	80-16

D

Dam Operators Training	110-6
Data Cards: Equipment servicing	15-7
Daylight Movies: Projection booth	7-6
Deep-well Pumps:	
Drive shaft support	20-20
Moving	41-16
Deflectors:	
Trash	4-7
Trash and log boom	4-6
Weed	97-205
Weed, adjustable pipe	30-3
De-icing: Compressed air	4-14
Delivery of Water: (See water delivery)	
Demossing:	
Buckets	97-227
Buckets, Gradall type	4-16
Canal, demossing, logging tractors	72-22
Moss fork	27-11
Scoops	37-165

Release and Page

Desirable Vegetation for Weed Control:	
Accessory equipment	97-19
Seed	97-6
Seed covering	97-19
Seeders, broadcast type	97-15
Seeders, drill type	97-14
Seeders, gravity-flow type	97-15
Seeders, hydro	97-17
Seeding	97-8
Specifications	97-31
Detectors: Bearing noise	43-12
Dewatering Facilities:	
Underwater inspections by engineer-diver	123-5
Diesel Engines:	
Fuel facts	24-10
Maintenance	61-1
Servicing mistakes	26-7
Starting in cold weather	31-9
Diesel Fuels: Basic facts	24-10
Differential Float Control	71-20
Digest Statement—Embankment Upstream Slope	
Failure—San Luis Dam	135-32
Dipnet: Animal removal from canals	12-8
Dip-stick: Modification for engines	15-13
Discharge Coefficients	116-27
Discipline: Employees	56-8
Disks:	
Boom, weed cleaning	97-179
Land weed control	97-147
Tandem, cable controlled	17-11
Dispensers:	
Chemical and gypsum, automatic	28-18
Disposal:	
Motor oil, used	25-14
Sodium filled valves	9-9
Waste oil	5-2
Weeds (see weed disposal)	
Disposal Channel: Maintenance	34-11
Dissipators:	
Energy of flowing water	14-1
Distribution Systems:	
Controls, electronic	22-1

	<u>Release and Page</u>
Distributor, Asphalt	46-6
Ditchbank Seeding:	
(See also weed control)	7-12
Ditchers:	
Hitch for tractor	19-12
New type	57-12
Tractor mounted, front end, single mouldboard	20-16
Tractor mounted, front end, "V" and double mouldboards	20-14
Tractor mounted, rear end "V"	25-16
Tractor pulled, hydraulic operated	17-14
Wizards	123-16
Ditches: (See canals and laterals)

Columbia Basin Project	50-1
Ditchrider Trainee Program:	
Columbia Basin Project	50-1
Diversion Dams:	
Boat boom	83-15
Remote control of outlets	32-2
Skimmer gates	42-22
Diverters: Weed	42-10, 97-201
Docks: Protection	33-8
Dog Catcher: Canals	29-11
Doors:	
Servicing steel, roll-up doors	103-13
Vehicles, rattle prevention	30-15
Vehicles, latch lubrication	62-13
Dozer Blade Spreader Box	29-22
Draglines:	
Fairlead modification	17-9
Safety boom shield	27-15
Side arm attachment	6-12
Drags:	
Aquatic weeds	97-174, 97-179
Booms, side-arm type	6-12, 97-176
Brush	27-1
Notched vee disk	97-184
Drainage:	
Boost yields, reclaim land	123-14
Dragline side-arm attachment	6-12
Manual	107-18

Release and Page

Drainage:--Continued	
Nomenclature	107-13
O&M standards	62-20, 107-15
Draining Pipelines: Care needed	34-7
Drain Inlet Racks	106-3
Drains:	
Channel maintenance	21-24
Cleaning foundation type	33-12, 44-17
Cleaning surface type	2-5
Clearing closed types	63-14
Function of	107-14
Gravel envelope material selection	88-1
Ochre-(iron-)clogged	113-3
Pipe, filter materials for	74-11
Rock gabions	114-1
Siphon blowoff	126-1
Stage construction	80-15
Drain Tile:	
Rodent control outlet screen	30-8
Trenching shield	2-14
Drawbars: Lifting arrangement	36-15
Dredges:	
Bucket raising assembly	31-12
Modification	67-24
Drill Holes: Uniform	53-18
Drill Rig:	
Analyze--Device--Revise	91-5
San Luis Field Division's problem and solution	100-16
Drilling Jigs:	
Check guides and headers	43-16
Drills:	
Grass seeding	7-2, 37-14
Portable for gate operation	12-3
Pressure handle for portable type	34-14
Screwjack for	22-14
Drivers:	
Ground rod	25-19
Steel rod or post	53-15
Drive Shafts: Support, deep-well pump	20-20
Driving:	
Gravel road, techniques	81-5
Hot weather	125-16

	<u>Release and Page</u>
Ice and snow	58-10
Winter Driving	133-11
Winter, getting ready for	82-12
Drop Chutes: Slip-form	86-7
Drought Assistance	100-1, 103-1
Drum and Barrel Truck	72-19
Drums: Lifting clamps	42-16
Dry Ice Not Cool	77-6
Dry Weeds:	
Burners, LP gas	97-140
Raking	30-14
Dummy Joints: Vegetation control	58-15
Dump Trucks:	
Automatic tailgate	34-8
Device to prevent accidental dumpings	91-8
Handgrips	22-13
Safety stops	22-13
Tailgate quick release	104-7
Dye, for Weed Control	63-10, 97-138

## E

Earth Canal Linings:	
Compacting blended soils	9-3
Compaction in small canals and laterals	9-4
Soils suitable	2-15, 118-14
Thick compacted	6-7
Earth Resources Technology Satellite	89-17
Electrical Fires:	
Fighting, cause and prevention	21-23
Electrical Logging:	
Aid to water well drillers	120-5
Locating canal seepage	35-1
Electrical Maintenance: Motor windings	6-15
Electrical Outlets: Convenience	24-17
Electrical, Safety:	74-6, 115-16
Irrigation equipment	103-6

Engine Care: Tips	72-2
Engine Overhaul: Tool for pulling pistons	47-19
Engines:	
Analyzing oil to detect wear	45-16
Diesel, general maintenance	61-1
Diesel, small and fuel efficient	131-12
Diesel, starting in cold weather	31-9
Dip-stick modification	15-13
Preventing overheating	63-13
Vehicle, cold climate modification	30-16
Environmental Management:	
Skimming the waterways—once-over-lightly	88-10
Environmental Standards, Pesticides	75-17
Epoxy Resins:	
Canal liners	110-1
Cautions in usings	34-5, 110-5
Concrete bonding agents	29-26

Release and Page

Epoxy Resins:—Continued	
Concrete repairs	35-14
Concrete structure repairs	82-1
Resurfacing bridge walkways with epoxy coating	109-15
Equalization of Strawberry and Soldier Creek	
Reservoirs	134-1
Equipment:	
Asphalt distributor improved	46-6
Burrow builder	51-16
Idler wheels	49-26
Lubrication	49-1
Maintaining hydraulic systems	45-17
Maintenance research	61-13
Management	48-9
Multi-use for snow and ice control	91-20
Removable car warning lights	45-21
Safety brakes for scaffolds	46-8
Small winches	48-22
Snowplow blade	46-5
Weed sprayer for inaccessible areas	51-22
Equipment Servicing:	
Analyzing engine oil to detect wear	45-16
Hints, operation and maintenance	2-11
Record cards	15-7
Safety	63-9
Erosion:	
Canal maintenance	39-1, 118-4, 124-11
Concrete lining repair	30-4
Concrete-nylon mat system for erosion control	101-1
Prevention on canal curves	39-1
Study of pipe lining materials	47-13
Evaporation	115-6
Excavators:	
Backhoe	2-9
Belt loader	5-3
Front-end loader, improved mounting	7-11
Operation and maintenance	2-11
Self-propelled, rubber-tire	98-10
Excluders: Silt & sand	77-1
Exclusion Devices (Weed Prevention): (See weed exclusion devices)	

Release and Page

Expanded Metal:	
Covers	28-17
Walkway plate	6-10
Walkways	28-17
Expansion Anchors: Self-drilling shells	22-10
Expansion Joints: Packing removal	53-21
Explosion in Grease Trap	92-17
Explosive Mixture: Solution ingredients	59-6
Exposed Asphalt Canal Linings:	
Cleaning lined laterals	4-4
Extension Ladders: Pickup mounted	26-5
Extension Rods: Valve operation	30-1
Extinguishers	107-19

Vegetation Control:	
Dummy joints	58-15
With herbicides	61-7
Vegetative Growth Removal: Guidelines	131-5
Vehicle:	
Air filter	122-15
Ditchriders' pickup modification	128-17
Emblem, slow moving	54-11
Purchasing and disposal guides	84-13
Removable warning lights	45-21
Safety belts	67-18
Safety checks	67-16
Safety equipment warning device	46-11
Safety requirements (GSA) 1967	59-13
Warning system, make your own	96-8
Vehicle Maintenance:	
All purpose	73-16
Brake system air loss	41-15
Door latch lubrication	62-13
Door rattle prevention	30-15
Easy service reminder	82-16
Engine modifications for cold climates	30-16
Lubrication	44-1
Portable working platform	38-13
Service and storage	84-19
Tailpipe modification	27-22
Tire inspection	34-16
Tire maintenance	34-16
Transmission jack	19-7

Release and Page

Ventilation, Manhole and Vault Structure	72-20
Vertical Plastic Cutoff:	
Columbia Basin Project	46-12
VHF Radio Repeaters, Batteries for	73-18
Vinyl-resin Paint: Water storage tanks	4-13
Void Detector—Concrete linings	104-1

W

Walkplank: Bracket, weir structure	38-8
Walkways:	
Expanded metal	24-6, 28-17
Expanded metal plates	6-10
Wood planks on structures	61-19
Walls: Cutoff type, structures	21-9
Warning System, Make Your Own	96-8
Washers: Parts	42-18
Washing Guns: Pneumatic	2-2
Washout Protection: Structures	21-9
Waste Oil: Disposal	5-2
Water Bank	103-1
Water-borne Sediments:	
Effect on pump capacity	39-6
Water Delivery:	
Pipelines, automatic control	26-1
Water Level:	
Indicator	34-14
Recorders—Corrugated-metal pipe stand	12-11
Sensor	116-12
Sump	101-10
Waterlines: Thawing	43-11
Water Loss by Seepage Halted with Flexible Liners	81-1
Water Mains: Cleaning with foam plugs	80-1
Water Measurement:	
Baseplate for current meter rod	29-31
Calibrated slide gate	128-15
CHO turnouts	52-17
Common errors	23-1
Current meter modification	27-7
In pressure conduits	90-1
Intake line clearing	70-15
