

RECLAMATION

Managing Water in the West

Operation of Flaming Gorge Dam Draft Environmental Impact Statement Technical Appendices

The mission of the Department of the Interior is to protect and provide access to our Nation's natural and cultural heritage and honor our trust responsibilities to Indian tribes and our commitments to island communities.

The mission of the Bureau of Reclamation is to manage, develop, and protect water and related resources in an environmentally and economically sound manner in the interest of the American public.

CONTENTS

TECHNICAL APPENDICES

	<i>Page No.</i>
Forest Service Position Paper	
Cover Letter From Forest Service.....	App-1
Addendum to the Revised (8/10/00) USDA Forest Service Position Paper, August 23, 2000.....	App-2
USDA Forest Service Position as a Cooperating Agency Revised – August 10, 2000.....	App-4
Flaming Gorge National Recreation Area Designation.....	App-5
Flaming Gorge Reservoir.....	App-6
Flaming Gorge-Uintas National Scenic Byway.....	App-7
Recreation and Administration of the Green River From Flaming Gorge Dam to Little Hole, Including Little Hole National Recreation Trail, Roads, Boat Ramps, Parking Areas, Restroom Facilities, Day Use Areas, and Concessionaire and Outfitter Guide Operations.....	App-7
Business Ventures and Capital in the Flaming Gorge National Recreation Area.....	App-9
Dutch John Privatization.....	App-9
Destination Resorts.....	App-9
Future Studies on Recreation Use.....	App-9
Hydrologic Modeling	
Introduction.....	App-11
Description of Modifications.....	App-11
Model Results.....	App-13
Flow Recommendations.....	App-13
Reservoir Wet and Dry Cycle Results.....	App-14
Reservoir Water Surface Elevation Percentile Results.....	App-17
Reach 1 Spring Peak Flow Results.....	App-19
Flaming Gorge Annual Bypass Release Results.....	App-19
Reach 1 August Through February Base Flow Release Results.....	App-23
Reach 2 Spring Peak Flow Results.....	App-24
Reach 2 Base Flow Release Results.....	App-26
Summary.....	App-27
Appendix.....	App-29
Flaming Gorge Draft Environmental Impact Statement	
Amendment to Hydrologic Modeling Report.....	App-55
Introduction.....	App-55
Data Description and Assumptions.....	App-55
Reach 3 Analysis.....	App-56
Flow Recommendations.....	App-56
Peak Flows in Reach 3.....	App-56
Base Flows in Reach 3.....	App-58
Summary.....	App-58

Hydrologic Modeling (continued)

Letter, Review of the Green River Model Developed for the Flaming Gorge Dam EIS.....	App-63
Background.....	App-63
Review Approach	App-63
Findings	App-64
Conclusions	App-68

Modified Run of the River Modeling Report

Introduction.....	App-69
Model Methodology.....	App-70
Model Results	App-71
Reservoir Wet and Dry Cycle Results.....	App-72
Reservoir Water Surface Elevation Percentile Results	App-72
Reach 1 Spring Peak Flow Results	App-77
Flaming Gorge Annual Bypass Release Results.....	App-79
Reach 1 August Through February Base Flow Release Results	App-79
Reach 2 Spring Peak Flow Results	App-80
Reach 2 Base Flow Release Results.....	App-83
Summary	App-83
Documentation of How Daily Inflows Were Created for the Modified Run of the River Alternative	App-84

**Effects of Flaming Gorge Operation Under the
1992 Biological Opinion and the 2000 Flow and Temperature
Recommendations on Sediment Transport in Green River**

1. Introduction	App-87
2. Study Reaches.....	App-89
3. Hydrology.....	App-89
4. Sediment Transport Analysis.....	App-94
4.1 Sediment Transport Quantities for Reach 1.....	App-95
4.2 Sediment Transport Quantities for Reach 2.....	App-95
4.3 Sediment Transport Quantities for Reach 3.....	App-96
5. Conclusions	App-96
6. References	App-97

Power System Analysis

Abstract	App-115
1. Introduction	App-115
2. Flaming Gorge Dam and Powerplant Overview	App-116
3. EIS Alternatives.....	App-117
3.1 Green River Flow Constraints	App-117
3.2 Flaming Gorge Operational Rules.....	App-120
4. Power System Modeling.....	App-125
4.1 Green River Model	App-125
4.2 SSARR Model.....	App-129
4.3 AURORA Model.....	App-129
4.4 GENOPT Model.....	App-130

Power System Analysis (continued)

4. Power System Modeling (continued)	
4.5 WL Algorithm	App-138
4.6 Model Integration	App-140
4.7 Compatibility Issues and Boundary Conditions	App-148
5. Flaming Gorge Powerplant Characteristics	App-149
5.1 Powerplant Capacity and Capability	App-149
5.2 Power Conversion and Generation	App-156
6. Projected Spot Market Prices.....	App-165
6.1 Average Annual and Seasonal Prices	App-165
6.2 Daily Spot Market Price Patterns	App-165
7. Monthly Flaming Gorge Operations and Yampa Inflows	App-172
7.1 Flaming Gorge Reservoir Elevations	App-172
7.2 Flaming Gorge Water Releases	App-172
7.3 Yampa Inflows	App-180
8. Economic Computations and Results	App-180
9. Cumulative Impact	App-193
9.1 Green River Simulations	App-193
9.2 Powerplant Operations	App-193
10. References	App-196
Appendix A: Hydraulic Turbine Data for Flaming Gorge	App-199

Cultural Resources

Colorado Historical Society, August 30, 2002.....	App-203
Colorado Historical Society, March 28, 2003.....	App-205
State of Utah, Utah State Historical Society, December 10, 2002.....	App-207
State of Utah, Utah State Historical Society, December 29, 2003.....	App-209
State of Utah, Utah State Historical Society, January 13, 2004.....	App-210
State of Utah, Utah State Historical Society, May 5, 2004.....	App-211
Wyoming State Historic Preservation Office, November 19, 2002.....	App-212
National Park Service, Intermountain Region, July 2, 2004.....	App-214
The Hopi Tribe, July 17, 2000	App-215
Kaibab Band of Paiute Indians, August 29, 2000	App-216
Ute Indian Tribe, May 24, 2004.....	App-217
Ute Indian Tribe, Tri-Ute Leader's Summit, Agenda, September 22, 2000	App-218

Recreation Visitation and Valuation Analysis

1.0 Introduction	App-221
2.0 Affected Environment	App-221
2.1 Geographic Impact Area.....	App-221
2.2 Current Conditions	App-224
2.2.1 Current Hydrology	App-225
2.2.1.1 Current Green River Flows.....	App-225
2.2.1.2 Current Flaming Gorge Reservoir Water Levels.....	App-226
2.2.2 Current Recreation Visitation.....	App-227
2.2.2.1 Current Green River Visitation.....	App-227
2.2.2.2 Current Flaming Gorge Reservoir Visitation	App-228

Recreation Visitation and Valuation Analysis (continued)

2.0 Affected Environment (continued)	
2.2 Current Conditions (continued)	
2.2.3 Current Recreation Valuation.....	App-229
2.2.3.1 Current Green River Valuation.....	App-229
2.2.3.2 Current Flaming Gorge Reservoir Valuation	App-229
3.0 Environmental Consequences	App-229
3.1 Methodology.....	App-233
3.1.1 Recreation Visitation, Economic Value, and Facility Availability Methodology	App-233
3.1.1.1 Green River Visitation and Valuation Analysis Methodology	App-234
3.1.1.2 Flaming Gorge Reservoir Visitation and Valuation Analysis Methodology.....	App-242
3.1.1.3 Green River Facility Availability Analysis Methodology	App-248
3.2 Results	App-250
3.2.1 Recreation Visitation and Valuation Results.....	App-250
3.2.1.1 No Action Alternative	App-251
3.2.1.2 Action Alternative	App-275
4.0 References.....	App-305

Socioeconomics

1.0 Introduction.....	App-307
2.0 Affected Environment.....	App-309
2.1 Geographic Impact Area (Region).....	App-309
2.2 Current Conditions	App-309
3.0 Environmental Consequences	App-310
3.1 Regional Economic Impact Analysis Methodology	App-310
3.1.1 Regional Modeling Methodology.....	App-311
3.1.2 Commercial Operator Survey Methodology	App-317
3.2 Regional Economic Impact Results.....	App-318
3.2.1 No Action Alternative	App-318
3.2.2 Action Alternative	App-322
3.3 Commercial Operator Surveys	App-325
4.0 Bibliography.....	App-333

Visual Analysis Special Report

Introduction.....	App-335
Affected Environment	App-335
Landscape Character	App-336
Scenic Integrity	App-336
Constituent Information	App-337
Landscape Visibility.....	App-337
Application	App-337
Flaming Gorge Reservoir	App-337
The Green River	App-339
Attachments	App-339
Attachment 1 Compilation of Visitor's Comments, 2002.....	App-341
Attachment 2 Compilation of Visitor's Comments, Hardcopy, 2002	App-343
Attachment 3 Photographs of Flaming Gorge and Green River, 2002.....	App-361
