

Socioeconomics Ad Hoc Group (SEAHG)

Background

- Chair – Ben Reeder
- Two Objectives
 - Is there value in streamlining a screening tool to quickly model/evaluate future experiments?
 - Is there value in using the hydropower workshop proposed in Reclamation 4.G as a tool to help better understand the hydropower models that could be used with Project J.1.

Future SEAHG Items

- A recommendation was made to the BAHG to include language to J.1. See BAHG Report.
- Additionally updated language is being proposed for 4.G. that will be out for the TWG to review
