

SBAHG Update

10/29/2024

Since the July TWG

- Meetings held on 7/22, 9/16, and 10/10
 - Remaining presentations from the July TWG on artificial spawning beds, side scan sonar, Tucker trawl and hydroacoustic studies, thermal curtain, and the 2024 monitoring plan
 - No additional recommendations for the TWP prior to August AMWG meeting
 - Discussion and review of a draft outline for the annual SMB report
 - Topics for the ARM and workshop

Next Steps

- Review potential topics for the ARM and workshop (Emily will send to SBAHG soon)
 - Workshop TBD (planning considerations)
- Review and discuss SMB annual report when available
- Continued conversations as necessary prior to ARM

—

Thank You
