Today's Agenda:

- WaterSMART Program Overview
- <u>Cooperative Watershed Management Program Phase I</u> Funding Opportunity Overview
- Environmental Water Resources Program Funding Opportunity Summary
- IMPORTANT Application Tips!
- Tools and Resources
- Question and Answer Period

WaterSMART Program

Provides a framework for Interior to support water supply reliability for multiple water users.

Cooperative Watershed Management Program

Develop a watershed group, complete watershed restoration planning activities, and design watershed management projects. The aim of CWMP is to encourage diverse stakeholders to form local solutions, and to support water supply reliable and reduce conflict over water resources.

- Phase I: Form a watershed group, develop a restoration plan and do project design (Up to \$200,000 in Federal funding)
- Implementation of on-the-ground watershed management projects now funded under the Environmental Water Resources Projects funding opportunity.

Watershed Groups: Definition and Provisions

A watershed group, as defined in Section 6001(6) of the Cooperative Watershed Management Act (see Section A.1. Authority for full citation):

- Is a grassroots, non-regulatory entity that addresses water availability and quality issues within the relevant watershed.
- Is capable of promoting the sustainable use of water resources in the watershed.
- Makes decisions on a consensus basis.
- Represents a diverse group of stakeholders representing different water use sectors, including hydroelectric producers; livestock grazing; timber production; land development; recreation or tourism; irrigated agriculture; the environment; municipal water supplies; private property owners; Federal, state and local governments; Tribes; and disadvantaged communities.

We highly recommend you do not attempt to apply as a watershed group if you do not ORGANICALLY meet this definition.

Cooperative Watershed Management Program Phase I

Eligible Project Activities

- Watershed group development
- Conducting outreach activities
- Gathering data about the watershed
- Watershed restoration plans
- Project design

Funding

- 0% Non-Federal cost share required
- Up to \$300,000 in Reclamation funding over 3 years

Watershed Groups must be located in one of the following states or territories: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, the Virgin Islands, and Puerto Rico

Applications are due by September 3, 2024.

Applicant Eligibility

New Watershed Groups:

States, Indian Tribes, local and special districts (e.g., irrigation, water districts, water conservation districts,), local governmental entities, interstate organizations, non-profit organizations, and institutes of higher education sponsoring a watershed group. To be eligible, applicants must also meet all the following requirements:

- 1. Be sponsoring the development of a New Watershed Group
- 2. Significantly affect or be affected by the quality or quantity of water in a watershed
- 3. Be capable of promoting the sustainable use of water resources

Existing Watershed Groups

States, Indian Tribes, local and special districts (e.g., irrigation, water districts, water conservation districts), local governmental entities, interstate organizations, non-profit organizations, and institutes of higher education **sponsoring a watershed group**. To be eligible, applicants must also be an Existing Watershed Group, which meets the definition of a watershed group and legally incorporated as a non-profit entity; be a participating entity in an Existing Watershed Group; or be a fiscal sponsor of an Existing Watershed Group.

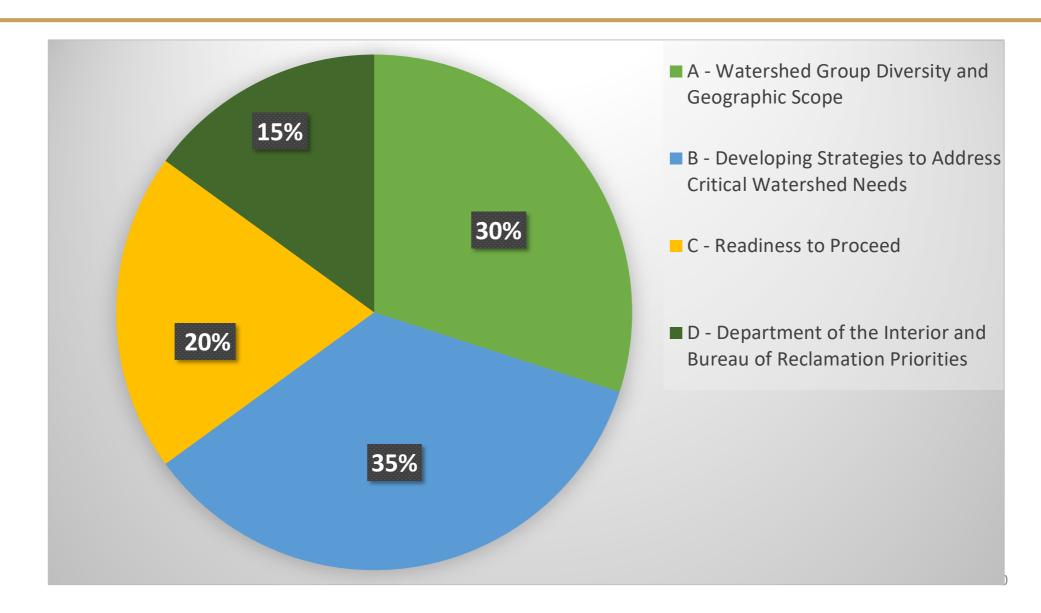

Eligible Project Types

Applicants can apply for funding for activities within one or more of the following three Task Areas:

- Task A Watershed Group Development: This includes efforts to establish or expand a watershed group, including developing a mission statement, conducting outreach, and conducting pre-planning activities.
- Task B Watershed Restoration Planning: Developing or updating a watershed restoration plan, mapping and modeling, technical assessments of water quantity or quality, collaborating with stakeholder to gather information and to seek input, developing restoration goals and general watershed management project concepts, and creating a matrix to evaluate and prioritize potential projects.
- Task C Watershed Management Project Design: Conducting an analysis to prioritize watershed management projects and identify specific project locations, completing site-specific design and engineering, developing project timelines and milestones, and researching potential environmental compliance requirements.

Evaluation Criteria

Evaluation Criteria

Criterion A—Watershed Group Diversity and Geographic Scope (30 points)

- Diverse stakeholder interests and sectors are represented within the group
- Greater consideration for small to medium watersheds (8 digit HUC) and groups whose work extends to entire watershed.

Evaluation Criterion B—Developing Strategies to Address Critical Watershed Needs(35 points)

- Describe the critical issues or needs within the watershed
- Describe how the work funded under this program will benefit the issues or needs identified.

Criterion C—Implementation and Results (20 points)

 Ability to meet program requirements evaluated based on schedule with milestones broken out for each task, start and end dates, and budget identifying costs for each task.

Criterion D – Presidential and DOI Priorities (15 points)

- <u>Combating the Climate Crisis:</u> How will the project help increase resilience to climate change or support climate change adaptation?
- <u>Disadvantaged Communities:</u> How does the project serve disadvantaged communities?
- <u>Tribal Benefits:</u> How will the project serve a tribe?

Cooperative Watershed Management Program- *Program Requirements Summary*

Eligible Applicants Existing watershed groups and applicants to establish new watershed groups, including States, Indian tribes, local and special districts, local governmental entities, interstate organizations, and non-profit organizations.

Funding Groups

Up to \$300,000 in Federal funds per applicant per award

Cost Share

Non-Federal cost-share is NOT required

Required
Project
Components

Semi Annual financial and performance reports, sufficiency review, and final report.

Evaluation Criteria Applications will be evaluated against the evaluation criteria which comprise a total of 100 points.

NOFO Deadline: Tuesday, September 3, 2024, at 4:00 p.m. MDT

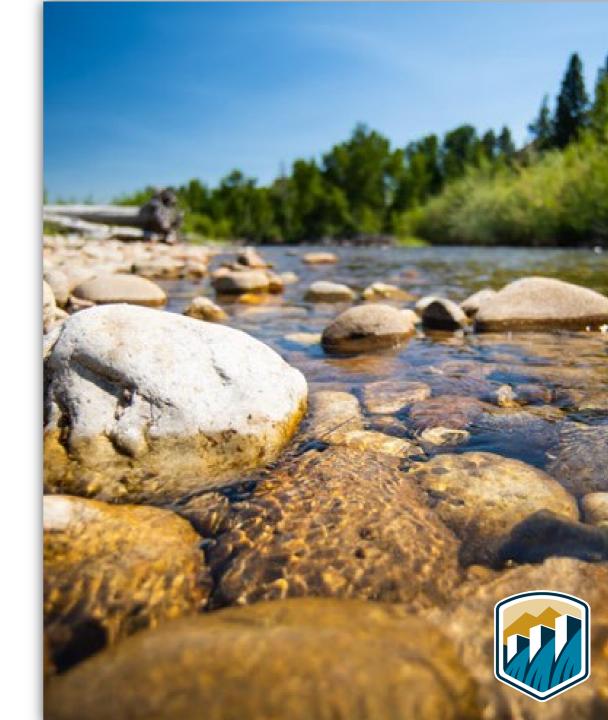

Environmental Water Resources Projects

Eligible Project Types

- Task A: Ecologically Focused Water Conservation and Efficiency Projects
- Task B: Ecologically Focused Water Management and Infrastructure Improvements
- Task C: Restoration and Nature-Based Solutions

Funding

- Projects up to \$3 million in federal funding with a total project cost not to exceed \$6 million, to be completed within 3 years.
- Watershed Groups can receive up to \$5 million for projects to be completed within 5 years.
- Non-Federal Cost Share: Generally 25%

Bipartisan Infrastructure Law Funding for WaterSMART Programs

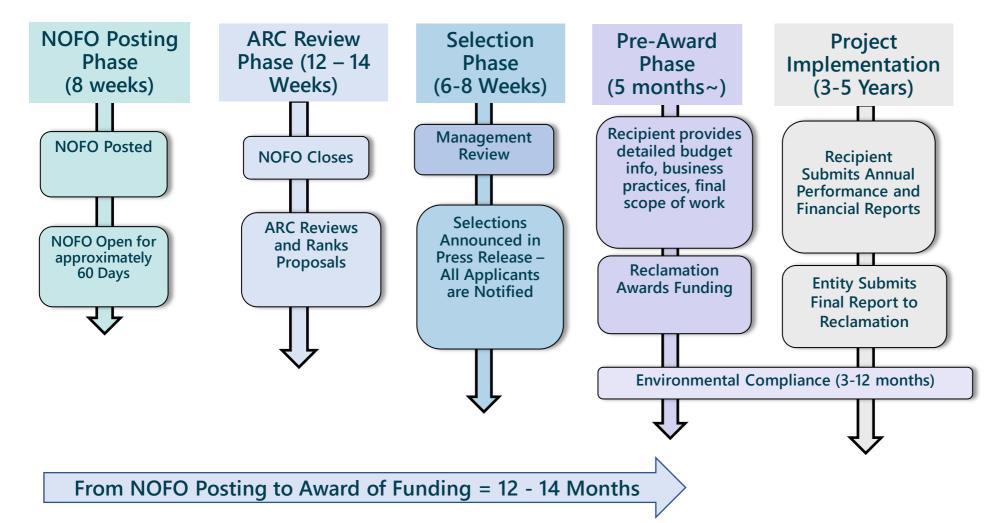

WaterSMART Programs Receiving Infrastructure Funding						
Program Area	Funding Amount (Over Five Years)	Activities Funded				
WaterSMART Grants (for Nature-Based Features)	\$100 million	Water conservation and efficiency, renewable energy, natural and nature-based features				
Cooperative Watershed Management Program	\$100 million	Watershed planning and restoration projects for watershed groups				
Aquatic Ecosystems Restoration and Protection Projects	\$250 million	Aquatic ecosystem restoration and protection projects to improve habitat				
Multi-Benefit Projects to Improve Watershed Health	\$100 million	Restoration projects to improve watershed health				

WaterSMART Selection Process

Sample schedule

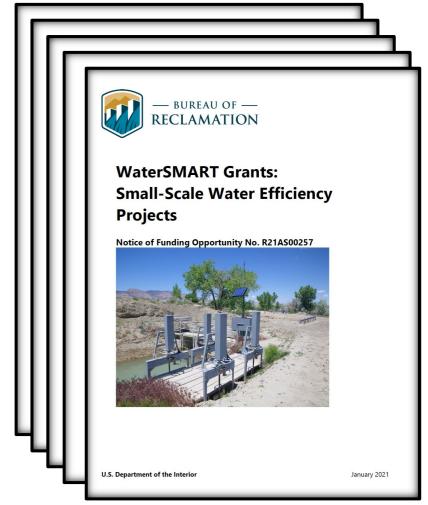

General Application Tips

- The most successful projects are those that fit well with the Notice of Funding Opportunity (NOFO).
- Review the objective of the NOFO, the eligible project types and the evaluation criteria carefully to choose the right NOFO.
- Suggested Pre-Application Actions:
 - Contact the Program Coordinator to discuss which NOFO your project fits best under.
 - Look at past successful applications at <u>www.usbr.gov/WaterSMART</u>

Application Tips

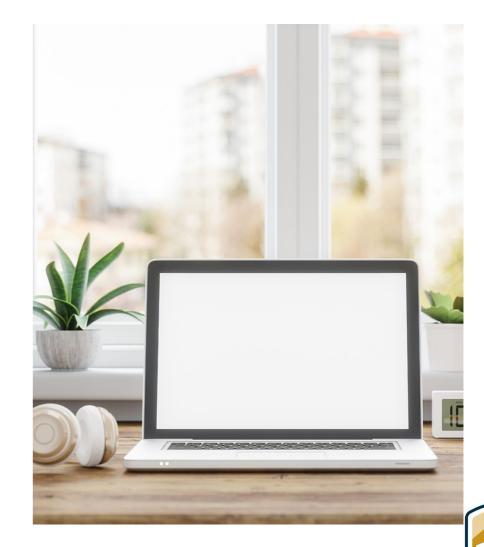

General Considerations

- Important: Read everything in the NOFO!
 - Ask questions if something does not make sense.
- Give yourself plenty of time to write and submit the proposal.
- Do not assume the Application Review Committee knows you.
 - Paint the reviewers a picture and back it up with data!
 - Committee is comprised of Reclamation staff from throughout the Western states.
- If your application is not awarded, ask for a debriefing to help prepare better proposal next year.

Application Tips Evaluation Criteria

- Make sure you respond to every criterion and every sub-criterion
- Your responses should:
 - Directly respond to the criterion We recommend you copy and paste the criteria directly into your proposal and place your response immediately below each criterion/subcriterion
 - Provide support in the form of quantification or citations to reference documents
 - Make the case for how your project meets the criterion general statements without explanation or support will not score well
- Application Tip: Well-supported responses to the evaluation criteria are the key to writing a competitive proposal

Application Tips

Other Considerations

- Project scope and budget should align!
 Reviewers will consider whether the
 budget is reasonable to complete the
 scope described in the technical project
 description.
- Consider inflation when developing your budget.

WaterSMART Cooperative Watershed Management
Program For Fiscal Year 2024
Funding Opportunity No. R23AS00362

Preparing your budget

WaterSMART Cooperative Watershed Management Program For Fiscal Year 2024 Funding Opportunity No. R23AS00362

- Budget should align with technical proposal
- Budget costs represent total project costs (Federal and Non-Federal)
- Recommend using Attachment A-Budget Narrative Guidance & Attachment B-Budget Detail
 - No required format, but required information listed in the NOFO must be included
- Application Tip: Write budget narrative while preparing the budget estimate

6a. Personnel

This category includes salaries and wages of employees of the applicant organization that will be working directly on the project. Generally, salaries of administrative and/or clerical personnel are classified as indirect or overhead costs in your organization's accounting system included as a portion of the stated indirect costs. If these salaries can be adequately documented as direct costs, they can be included in this section; however, a justification must be included in the narrative. Recommend reviewing § 200.430 Compensation - personal services for more information on the specific requirements regarding compensation costs, including the Standards for Documentation of Personnel Expenses at §200.430(i).

Narrative: For key personnel such as the project manager or principal investigator, identify the name individual and position/title. Other personnel should be identified by position only. For all positions, identify the project tasks that will be performed. Compensation rates can be expressed as hourly rates and number of hours or annual salary and percentage effort that will be contributed to each task, but must be consistent with your organization's accounting and timekeeping policies. Include estimated hours for compliance with reporting requirements, including the final project report and evaluation. For multi-year projects, identify the level of effort anticipated for each budget year and any estimates increases in compensation rates. Within the budget narrative, provide a certification that the labor rates included in the budget proposal represent the actual labor rates of the identified personnel/positions and are consistently applied to Federal and non-Federal activities. Note: The annual/hourly labor rate must not include fringe benefits.

Technical Proposal (use Project Narrative form to upload in Grants.gov)

Budget Narrative (use Budget Narrative form to upload in Grants.gov)

Financial Assistance Staff

- Answer questions about financial assistance requirements during the application process
- Conduct Initial Screening and remove applications that do not meet the completeness, eligibility and timeliness requirements of the NOFO.

 Notify Applicants of Application status based on the contact information provided on the SF-424 Form

Financial Assistance

First Level Screening

All application packages will be screened to ensure:

- The applicant meets the completeness, eligibility, and timeliness requirements
- The applicant meets the Unique Entity Identifier (UEI) and SAM registration requirements
- The application meets the content requirements
- The application contains completed mandatory forms

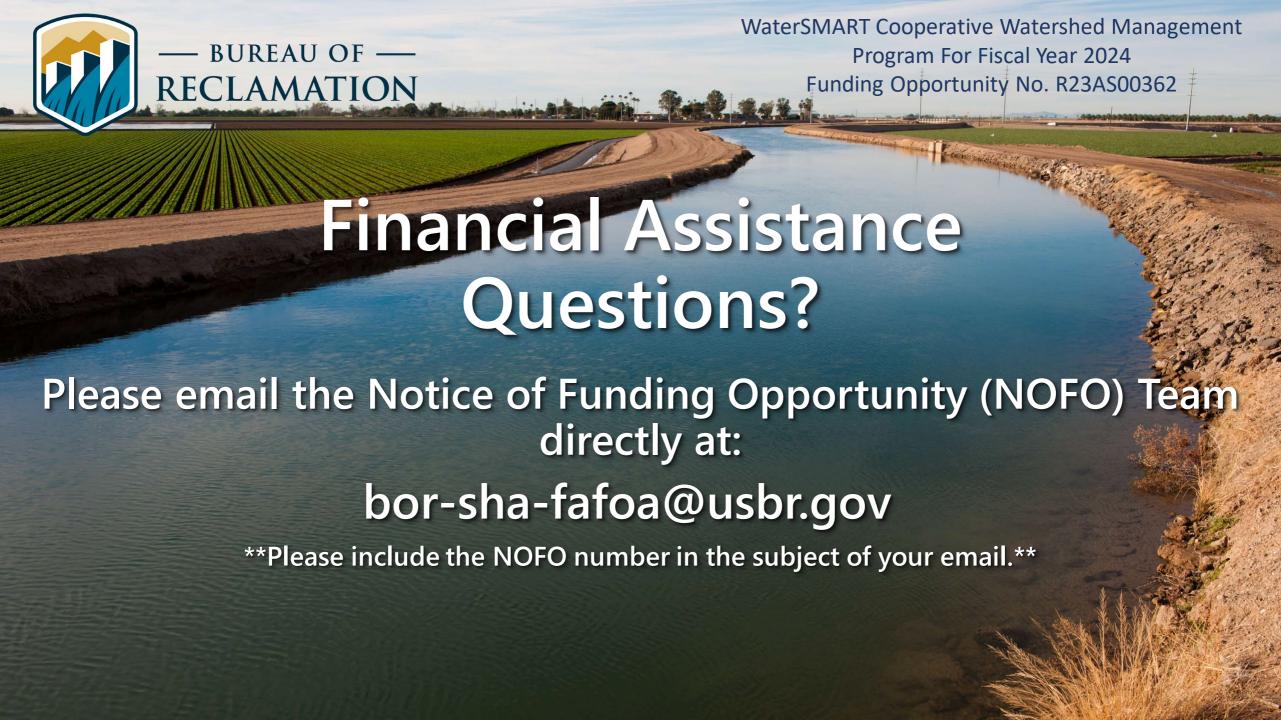

WaterSMART Cooperative Watershed Management Program For Fiscal Year 2024 Funding Opportunity No. R23AS00362

Selection Notification

After Initial screening:

- Ineligible applicants will be notified by Grants Officer
- Eligible applicants will move on to the Merit Review
- All successful and unsuccessful applications will be notified by Grants Officer.
- The Financial Assistance Office will reach out to the successful applicant regarding next steps for entering into a Financial Assistance award.

WaterSMART

The American West faces serious water challenges. Wide-spread drought, increased populations, aging infrastructure, and environmental requirements all strain existing water and hydropower resources. Adequate and safe water supplies are fundamental to the health, economy, and security of the country. Through WaterSMART, Reclamation will continue to work cooperatively with states, tribes, and local entities as they plan for and implement actions to increase water supply brough investments to modernize existing infrastructure and avoid potential water conflicts.

Join the WaterSMART Mailing List

You may complete this **form** to receive WaterSMART program notification from the Bureau of Reclamation.

WaterSMART Project Selections Overview

Since January 2021, Reclamation has selected 255 projects to be funded with \$93 million in WaterSMART funding, in conjunction with \$314.3 million in non-Federal funding, across the western states.

Census tracts that are overburdened and underserved are highlighted as being disadvantaged on the map. Federally Recognized Tribes, including Alaska Native Villages, are also considered disadvantaged communities.

Zooming in and selecting shows information about each census tract.

Get the data ♣

Download the data with documentation and shapefile from the downloads page.

How to use the map:

Zoom in + , search $^{\mathbf{Q}}$, or locate yourself $^{\mathbf{\Phi}}$ and select to see information about any census tract.

Things to know:

The tool uses census tracts
. Census tracts are a small
unit of geography. They
generally have populations
of between 1,200 - 8,000
people.

Communities that are disadvantaged live
